

The First Announcement

The 7th International Symposium on Environment, Natural Resources and Ecological Conservation (ISENREC2021)

The Chinese Society of Environmental Resources and Ecological Conservation, Institute of Geographic Sciences and Natural Resources Research of CAS, Nong Lam University, Ho Chi Ming City, Viet Nam, Guangdong Institute of Eco-environmental and Soil Sciences, Chinese Culture University, and Chinese University of Hong Kong are organizing the 7th International Symposium on Environment, Natural Resources and Ecological Conservation (ISENREC2021). This conference will take place in Ho Chi Ming City, Viet Nam on November 26-29, 2021.

The main purpose of ISENREC2021 is to exchange research ideas and methodologies, discuss areas for collaboration and set up an international research network on environmental protection and ecosystem management. The theme of ISENREC2021 is “Environment, Natural Resources and Ecological Conservation for Sustainable Development”, and the topics of interest are:

- Ø Soil and water protection and remediation
- Ø Climate hazards and mitigation strategies
- Ø Ecosystem resilience and adaptation to climate change
- Ø Hydro-geomorphological processes and river basin management
- Ø RS, GPS, GIS and other advanced technologies in environmental and ecosystem management
- Ø Regional sustainable development
- Ø Soil and water conservation in tropical and sub-tropical regions

The preliminary schedule of the conference and post-conference field investigation is:

- (1) Registration and ice-breaking meeting in Ho Chi Ming City, Viet Nam: November 25, 2021;
- (2) Symposium at Nong Lam University: November 26-28, 2021, including communications with Nong Lam University;

(3) Post-conference field investigation:
